Poem for the month of May:

Growing

By: Anonymous

When I started kindergarten
I couldn't have felt smaller,
But I've been growing, growing-
And not just growing taller!

I've learned to read and learned to write;
I've learned my numbers, too,
And there are many other things
That I have learned to do.

Kindergarten's over now
But I am not afraid,
Because I know I'm ready
To enter the first grade!
